## ELECTRONIC CHECK SERVICE

Get Faster Access to Funds, Minimize Risk, and Reduce Costs

If you're like most businesses, check acceptance is a necessary, but burdensome part of conducting business. Now, thanks to Elavon's Electronic Check Service (ECS), you can offer your customers the option of paying by check, while dramatically reducing the risk and cost associated with accepting those checks. ECS converts all paper checks - consumer and business - into safe, efficient electronic transactions. By submitting checks through the same system that you use to authorize credit cards, you can significantly lower costs and enrich your cash flow.

## ELECTRONIC GIFT & PREPAID CARDS

Your gift card transactions will be handled by Elavon with the same speed and ease of credit cards. And you can monitor transaction details and card balances online. Compare that to the hassle of manually processing paper gift certificates!

Whether you start with just a few cards or design your own custom program, Elavon's gift card program gives you the freedom to tailor an affordable solution that's most effective for you.
